Objective of the Webinar:

Through this webinar we intend to know about different pandemics of the past as well as about the present one, along with the broad impacts of such pandemics. One of the major objectives of this webinar is to understand how COVID19 has inflicted injuries to the already fragile gender equality in a country like India. We also desire to understand how COVID19 pandemic situation has generated immense psychological setbacks, particularly for women and what may be the real time curative measures for it.
