The COVID Task Force of Garhbeta College, in association with SAHELI – the Women’s Cell and the Internal Quality Assurance Cell of the college, has organized a webinar on Covid awareness on 13<sup>th</sup> June, 2021. Dr. Partha Chakrabarti, a doctor and Senior Principal Scientist at the Indian Institute of Chemical Biology was the main speaker at the webinar. The webinar was inaugurated by the honourable principal of the college Dr. Hariprasad Sarkar.

In the beginning, Dr. Sarkar emphasised the main target of the webinar, which was to spread awareness about the corona virus that has created an atmosphere of fear around the world. It is of utmost importance to understand the impact of the infection and the responsibility of a person as a part of his/her community.

The speaker, Dr. Chakrabarti explained various aspects of the COVID-19 pandemic in a very effective manner. Catering to the college community, Dr. Chakrabarti delivered his talk in primarily vernacular language. Different known and unknown facts about COVID was discussed very lucidly. Dr. Chakrabarti spoke about numerous myths about COVID and their scientific basis or lack of any. The importance of the use of a proper type of mask, role of the vaccine in reducing the severity of the infection in around sixty seven percent of the cases, the far-fetched idea of acquiring herd immunity as an alternative to getting vaccine shots, the low mortality rate of the virus infection, all these important issues were discussed by the speaker. Dr. Chakrabarti mentioned that science does not give sermon of truth, rather, life sciences deal in probabilistic understanding as different human bodies react differently to a single situation.

A long and very much in-depth discussion followed the main talk, during the question-and-answer session. There were around a hundred student participants from the college along with the teaching and non-teaching staff in the webinar. It was a pleasure to have Dr. Debiprasad Sarkar, A Santi Swarup Bhatnagar Awardee, biochemist and virologist, department of Biochemistry, University of Delhi, South Campus.

The coordinator of the Internal Quality Assurance Cell of the college, Dr. Prithwish Kumar Hait delivered the vote of thanks. The programme was concluded by the principal of the college.
