Report on “A One-day College Level Seminar on Recent Research Trends in Mathematics”

A one-day college level seminar on recent research trends in Mathematics was organized by Department of Mathematics, Garhbeta College in celebration of National Mathematics Day 2023 on 13th January, 2024. Although National Mathematics Day is observed in 22nd December of every year to commemorate the birthday of Srinivasa Ramanujan, we had not been able to organize this event on that day for some unavoidable reasons. The program was inaugurated by our college Principal in the Seminar Hall and two technical sessions were held in the departmental classroom SNB4. Dr. Trisha Maitra, Assistant Professor, Prashanta Chandra Mahalanobis Mahavidyalaya, Kolkata and Dr. Bikash Chakraborty, Assistant Professor, Ramakrishna Mission Vivekananda Centenary College, Rahara were the speaker. A total number of 44 participants including all the faculties, staffs and students of Department of Mathematics attended the programme. Dr. Maitra focused on different aspects of Stochastic Process and its usefulness in our daily life, whereas Dr. Chakraborty illuminates on the revisit of mathematical identities through pictorial constructions – both are among the most emergent fields of modern day. Students as well faculties actively engaged in exchange of their views with the speaker.
